

Test Stand

Low Pressure Test

This pressure control unit is used to simulate pressure conditions at different altitudes, to verify components for the aerospace industry.

Technical description

Loading	Manual
Test sample	Aerospace components
Test medium	Air
Test pressure	Vacuum to 14.5 psi (1 bar)
Temperature	Room temperature
Accuracy	± 0.2 %
Control system	PC-controlled test cycle
Features	Electronic pressure control using an ER3000 19" rack mount.

The design and technical parameters selected are specific to this application but can be changed to meet customer needs.
