

Gas Supply

Nitrogen Supply System

Nitrogen supply cart for military aircrafts. Small, easy to handle cart with a built-in high pressure pump.

Task:

- Supply of Nitrogen at two pressure ranges

Technical description

Loading

Manual

Medium

Nitrogen

Pressure

Max. 2900/4350 psi (200/300 bar)

Temperature

-40 to +75 °C (-40 to +160 °F)

Control system

Manual selection of cylinders

Features

Integrated pneumatically driven pump.
Valves integrated into a manifold for rugged design and easy maintenance.
Easy bottle replacement.
Check valves eliminate backfilling.
Heavy duty steel construction.
Custom colors and logos available on request.

The design and the technical parameter are selected for this application and can be changed according to customer needs.
